

THE HISTORICAL CHILD WELFARE TIMELINE: A TRANSFORMATIONAL EXPERIENCE

The Historical Child Welfare Timeline: A Transformational Experience examines the chronology of the child welfare system through the eyes of the underserved. It utilizes several modules of display, incorporating modern day totems, trade show panels, banners, technology, children's artifacts, and a simple curio cabinet in an effort to both engage and interact with the viewer. Additionally, the exhibit attempts to provide concrete solutions to the inherent problems within the system and leaves room for visitors to participate by expressing their own thoughts on "reflection cards."

This exhibit was produced by the New York City Administration for Children's Services' Racial Equity and Cultural Competence Committee.

Don't miss your opportunity to experience this very moving and informative exhibit, which will be on display during the:

150th Annual NYPWA Summer Conference
Honoring Our Reason for Being
